## Resources to use with young people

### **CEOP Resources:**

CEOP's Thinkuknow programme provides a range of free resources - films, lesson plans, presentations, practitioner guidance, games and posters - to professionals working with children and young people. Through the use of our educational materials you can help to empower and protect young people from the harm of sexual abuse and exploitation, both online and off.

IAssistSafety helps children learn protective behaviours. All children deserve to be safe. Using a hand IAssistSafety allows a child to identify 5 adults who they could ask for help if feeling unsafe. The hand assists children to remember their safe people. The adults should be people the child sees regularly, people they can trust and people who will listen to the child. These 5 adults will help the child to be safe if they are scared, worried, sad or just need help. Use the name, phone number and image or photos of the adult and add it to the child's hand. Your child's hand can be emailed, saved in your gallery, used as a screen saver or printed. This App helps to give your child a voice in keeping themselves safe.
